

OPTIMUM VENTURES LTD.
CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2019 and 2018
(Stated in Canadian Dollars)

INDEPENDENT AUDITORS' REPORT

To the Shareholders and Board of Directors of
Optimum Ventures Ltd.

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Optimum Ventures Ltd. (the "Company"), which comprise the consolidated statements of financial position as at June 30, 2019 and 2018, and the consolidated statements of loss and comprehensive loss, changes in equity and cash flows for the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018, and the related notes, including a summary of significant accounting policies and other explanatory information.

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as at June 30, 2019 and 2018, and its financial performance and its cash flows for the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018 in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2(c) of the consolidated financial statements, which indicates the Company does not generate revenue or cash flows from operations and relies on financing for its business activities. As stated in Note 2(c) these matters and other conditions indicate a material uncertainty exists that may cast significant doubt over the ability of the Company to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information, which comprises the information included in the Management's Discussion and Analysis filed with the relevant Canadian Securities Commissions.

Our opinion on the consolidated financial statements does not cover the other information and does not and will not express any form of assurance conclusion thereon. In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits and remain alert for indicators that the other information appears to be materially misstated. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audits of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of the users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, conclude whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and evaluate whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditors' report is Joseph Bonvillain, CPA, CA.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

1. Corporate Information

Optimum Ventures Ltd. (the “Company”) was incorporated on November 23, 2017 under the laws of the Province of British Columbia, Canada. The Company’s principal business activity is the acquisition, exploration and evaluation of mineral properties. The Company has the option to earn a 100% interest in the Riverside/Mineral Basin property located in the State of Alaska, USA.

On February 8, 2019, the Company incorporated a 100% owned Alaskan subsidiary, Hyder Ventures Ltd., to carry out its business activities in the State of Alaska.

The Company is planning an initial public offering of its common shares and intends to list its common shares for trading on the TSX Venture Exchange.

The Company’s head office and principal business address is 611 8th Street, PO Box 211, Stewart, British Columbia, V0T 1W0.

2. Basis of Preparation

a) Statement of Compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

The consolidated financial statements were authorized for issue on October 21, 2019 by the Directors of the Company.

b) Basis of Measurement

These consolidated financial statements have been prepared using the historical cost basis except for financial instruments that have been measured at fair value.

The consolidated financial statements are presented in Canadian dollars, which is the Company’s functional currency and presentation currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgement in applying the Company’s accounting policies. The areas involving a higher degree of judgement of complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

OPTIMUM VENTURES LTD.**Notes to the Consolidated Financial Statements****For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018****(Stated in Canadian Dollars)**

2. Basis of Preparation – (cont'd)c) Going Concern

At June 30, 2019, the Company has not generated revenue from operations, has an accumulated deficit of \$115,237 and expects to incur further losses in the exploration and development of its mineral properties. These consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has not yet determined whether its mineral properties contain economically recoverable reserves. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the confirmation of economically recoverable reserves, the Company's ability to obtain adequate financing to develop the reserves, and its ability to generate revenues and cash flows from profitable operations in the future. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern.

The Company is planning an Initial Public Offering ("IPO") of its common shares as disclosed in Note 13, which it believes will provide sufficient funds to sustain planned operations for the next twelve months. The junior mining industry is considered speculative in nature which could make the Company more difficult to fund. There is no assurance that the Company will be able complete the IPO.

These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

d) Principles of Consolidation

These consolidated financial statements include the accounts of the Company and its controlled entity. All inter-company balances and transactions have been eliminated on consolidation. Details of its controlled entity are as follows:

Name of subsidiary	Country of Incorporation	Percentage ownership	Functional Currency
Hyder Ventures Ltd.	USA	100%	CAD

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

3. Significant Accounting Policies

These consolidated financial statements have, in management's opinion, been properly and consistently prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Foreign Currency Transactions

Foreign currency accounts are translated into Canadian dollars as follows:

At the transaction date, each asset, liability, revenue and expense denominated in a foreign currency is translated into Canadian dollars by the use of the exchange rate in effect at that date. At the year-end date, unsettled monetary assets and liabilities are translated into Canadian dollars by using the exchange rate in effect at the year-end date and the related translation differences are recognized in net income. Exchange gains and losses arising on the retranslation of monetary financial assets are treated as a separate component of the change in fair value and recognized in net income. Exchange gains and losses on non-monetary financial assets form part of the overall gain or loss recognized in respect of that financial instrument.

Non-monetary assets and liabilities that are measured at historical cost are translated into Canadian dollars by using the exchange rate in effect at the date of the initial transaction and are not subsequently restated. Non-monetary assets and liabilities that are measured at fair value or at a revalued amount are translated into Canadian dollars by using the exchange rate in effect at the date the value is determined and the related translation differences are recognized in net income or other comprehensive loss consistent with where the gain or loss on the underlying non-monetary asset or liability has been recognized.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

3. Significant Accounting Policies – (cont'd)

b) Mineral Property Exploration and Evaluation Expenditures

Pre-exploration Costs

Pre-exploration costs are expensed in the period in which they are incurred.

Exploration and Evaluation Expenditures

Once the legal right to explore a property has been acquired, costs directly related to exploration and evaluation expenditures are recognized and capitalized, in addition to the acquisition costs. These direct expenditures include such costs as materials used, surveying costs, drilling costs, payments made to contractors and depreciation on plant and equipment during the exploration phase. Costs not directly attributable to exploration and evaluation activities, including general administrative overhead costs, are expensed in the period in which they occur.

The Company may occasionally enter into farm-out arrangements, whereby the Company will transfer part of a mineral interest, as consideration, for an agreement by the transferee to meet certain exploration and evaluation expenditures which would have otherwise been undertaken by the Company. The Company does not record any expenditures made by the farmee on its behalf. Any cash consideration received from the agreement is credited against the costs previously capitalized to the mineral interest given up by the Company, with any excess cash accounted for as a gain on disposal.

When a project is deemed to no longer have commercially viable prospects to the Company, exploration and evaluation expenditures in respect of that project are deemed to be impaired. As a result, those exploration and evaluation expenditure costs, in excess of estimated recoveries, are written off to the statement of comprehensive loss.

The Company assesses exploration and evaluation assets for impairment when facts and circumstances suggest that the carrying amount of an asset may exceed its recoverable amount.

Once the technical feasibility and commercial viability of extracting the mineral resource has been determined, the property is considered to be a mine under development and is classified as “mines under construction”. Exploration and evaluation assets are also tested for impairment before the assets are transferred to development properties.

As the Company currently has no operational income, any incidental revenues earned in connection with exploration activities are applied as a reduction to capitalized exploration costs.

Mineral exploration and evaluation expenditures are classified as intangible assets.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

3. Significant Accounting Policies – (cont'd)

c) Impairment of Non-Financial Assets

Impairment tests on intangible assets with indefinite useful economic lives are undertaken annually at the financial year-end. Other non-financial assets, including exploration and evaluation assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit, which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets. The Company has one cash-generating unit for which impairment testing is performed.

An impairment loss is charged to the profit or loss, except to the extent they reverse gains previously recognized in other comprehensive loss.

d) Provisions

Rehabilitation Provision

The Company is subject to various government laws and regulations relating to environmental disturbances caused by exploration and evaluation activities. The Company records the present value of the estimated costs of legal and constructive obligations required to restore the exploration sites in the period in which the obligation is incurred. Rehabilitation activities include restoration, reclamation and re-vegetation of the affected exploration sites.

The rehabilitation provision generally arises when the environmental disturbance is subject to government laws and regulations. When the liability is recognized, the present value of the estimated costs is capitalized by increasing the carrying amount of the related mining assets. Over time, the discounted liability is increased for the changes in present value based on current market discount rates and liability specific risks.

Additional environment disturbances or changes in rehabilitation costs will be recognized as additions to the corresponding assets and rehabilitation liability in the period in which they occur. At June 30, 2019 and 2018, the Company did not have any rehabilitation provisions.

Other Provisions

Provisions are recognized for liabilities of uncertain timing or amount that have arisen as a result of past transactions, including legal or constructive obligations. The provision is measured at the best estimate of the expenditure required to settle the obligation at the reporting date.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

3. Significant Accounting Policies – (cont'd)

e) Financial Instruments

Financial Assets

On initial recognition, financial assets are recognized at fair value and are subsequently classified and measured at: (i) amortized cost; (ii) fair value through other comprehensive income (“FVOCI”); or (iii) fair value through profit or loss (“FVTPL”). The classification of financial assets is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. A financial asset is measured at fair value net of transaction costs that are directly attributable to its acquisition except for financial assets at FVTPL where transaction costs are expensed. All financial assets not classified and measured at amortized cost or FVOCI are measured at FVTPL. On initial recognition of an equity instrument that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment’s fair value in other comprehensive income.

The classification determines the method by which the financial assets are carried on the statement of financial position subsequent to inception and how changes in value are recorded. Cash is measured at FVTPL.

Impairment of Financial Assets

An ‘expected credit loss’ impairment model applies which requires a loss allowance to be recognized based on expected credit losses. The estimated present value of future cash flows associated with the asset is determined and an impairment loss is recognized for the difference between this amount and the carrying amount as follows: the carrying amount of the asset is reduced to estimated present value of the future cash flows associated with the asset, discounted at the financial asset’s original effective interest rate, either directly or through the use of an allowance account and the resulting loss is recognized in profit or loss for the period.

In a subsequent period, if the amount of the impairment loss related to financial assets measured at amortized cost decreases, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

Financial Liabilities

Financial liabilities are designated as either: (i) fair value through profit or loss; or (ii) at amortized cost. All financial liabilities are classified and subsequently measured at amortized cost except for financial liabilities at FVTPL. The classification determines the method by which the financial liabilities are carried on the statement of financial position subsequent to inception and how changes in value are recorded. Accounts payable are classified under other financial liabilities and carried on the statement of financial position at amortized cost.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

3. Significant Accounting Policies – (cont'd)

f) Income Taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in net income except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive loss.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting or taxable profit or loss.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting period, the Company reassesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

g) Share Capital

Financial instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset. The Company's common shares are classified as equity instruments.

Costs directly attributable to the issue of new shares are recognized in equity as a deduction from the proceeds. Costs attributable to the listing of existing shares are expensed as incurred.

h) Loss per Share

Basic loss per share is computed by dividing the net loss applicable to the common shares by the weighted average number of common shares outstanding for the period.

Diluted loss per share is computed by dividing the net loss applicable to the common shares by the sum of the weighted average number of common shares issued and outstanding and all additional common shares that would have been outstanding, if potentially dilutive instruments were converted. When losses are incurred, basic and diluted loss per share are the same as the exercise of stock options and share purchase warrants is considered to be anti-dilutive.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

3. Significant Accounting Policies – (cont'd)

i) Share-Based Payments

Where equity-settled share options are awarded to employees, the fair value of the options at the date of grant is charged to the statement of comprehensive loss over the vesting period. Performance vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each reporting date so that, ultimately, the cumulative amount recognized over the vesting period is based on the number of options that eventually vest. Non-vesting conditions and market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether these vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition or where a non-vesting condition is not satisfied.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to the statement of comprehensive loss over the remaining vesting period.

Where equity instruments are granted to employees, they are recorded at the fair value of the equity instrument granted at the grant date. The grant date fair value is recognized in comprehensive loss over the vesting period, described as the period during which all the vesting conditions are to be satisfied.

Where equity instruments are granted to non-employees, they are recorded at the fair value of the goods or services received in the statement of comprehensive loss, unless they are related to the issuance of shares. Amounts related to the issuance of shares are recorded as a reduction of share capital.

When the value of goods or services received in exchange for the share-based payment cannot be reliably estimated, the fair value is measured by use of a valuation model. The expected life used in the model is adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

All equity-settled share-based payments are reflected in contributed surplus, until exercised. Upon exercise, shares are issued from treasury and the amount reflected in contributed surplus is credited to share capital, adjusted for any consideration paid.

Where a grant of options is cancelled or settled during the vesting period, excluding forfeitures when vesting conditions are not satisfied, the Company immediately accounts for the cancellation as an acceleration of vesting and recognizes the amount that otherwise would have been recognized for services received over the remainder of the vesting period. Any payment made to the employee on the cancellation is accounted for as the repurchase of an equity interest except to the extent the payment exceeds the fair value of the equity instrument granted, measured at the repurchase date. Any such excess is recognized as an expense.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

3. Significant Accounting Policies – (cont'd)

j) Recent Accounting Pronouncements

There was no impact on the Company's consolidated financial statements from the following new standards adopted effective July 1, 2018:

IFRS 9 – Financial Instruments

In November 2009, as part of the IASB project to replace IAS 39 Financial Instruments: Recognition and Measurement, the IASB issued the first phase of IFRS 9 Financial Instruments, that introduces new requirements for the classification and measurement of financial assets. The standard was revised in October 2010 to include requirements regarding classification and measurement of financial liabilities. In November 2013, new general hedging requirements were added to the standard. In July 2014, the final version of IFRS 9 was issued and adds a new expected loss impairment model and amends the classification and measurement model for financial assets by adding a new fair value through other comprehensive income category for certain debt instruments and additional guidance on how to apply the business model and contractual cash flow characteristics.

IFRS 15 – Revenue from Contracts with Customers

In May 2014, IFRS 15 was issued and replaces IAS 11 – Construction Contracts, IAS 18 – Revenue, IFRIC 13 – Customer Loyalty Programmes, IFRIC 15 – Agreements for the Construction of Real Estate, IFRIC 18 – Transfers of Assets from Customers and SIC-31 – Revenue – Barter Transactions Involving Advertising Services. IFRS 15 establishes a single five-step model framework for determining the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer.

k) Accounting Standards and Amendments Issued but Not Yet Effective

New accounting standards effective July 1, 2019:

The following standards have not been adopted by the Company. The Company does not expect the adoption of these standards and amendments to have a significant impact on its consolidated financial statements.

IFRS 2 – Shared-Based Payments

In June 2016 the Board issued the final amendments to IFRS 2 which amended (a) the effects that vesting conditions have on the measurement of a cash-settled share-based payment; (b) the accounting for modification to the terms of a share-based payment that changes the classification of the transaction from cash-settled to equity settled; and (c) classification of share-based payment transactions with net settlement features.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

(Stated in Canadian Dollars)

3. Significant Accounting Policies – (cont'd)

k) Accounting Standards and Amendments Issued but Not Yet Effective – (cont'd)

IFRS 16 – Leases

IFRS 16 establishes principles for the recognition, measurement, presentation and disclosure of leases, with the objective of ensuring that lessees and lessors provide relevant information that faithfully represents those transactions.

4. Critical Accounting Estimates and Judgments

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only; or in the period of the change and future periods, if the change affects both. Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

a) Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

b) Rehabilitation Provisions

Rehabilitation provisions have been determined to be \$Nil based on the Company's internal estimates. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions from period to period.

(Stated in Canadian Dollars)

4. Critical Accounting Estimates and Judgments – (cont'd)

c) Share-Based Payments

The Company uses the Black Scholes Option Pricing Model for valuation of share-based payments. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

d) Valuation of Deferred Tax Assets

The Company makes a determination of whether it is likely that future taxable profits will be available to utilize against any deferred tax assets.

5. Exploration and Evaluation Assets

a) Riverside

By an option assignment agreement dated December 8, 2017, the Company has the right to acquire a 100% interest in the Riverside claims which consist of 8 patented mineral claims located in the Hyder Mining District, in the State of Alaska, USA. Consideration to acquire the 100% interest is as follows:

Cash Payments:

- i) US\$10,000 on execution of the agreement (paid);
- ii) a further US\$20,000 on or before September 22, 2018 (paid);
- iii) a further US\$30,000 on or before September 22, 2019 (paid);
- iv) a further US\$40,000 on or before September 22, 2020; and
- v) a further US\$50,000 on or before September 22, 2021.

Cumulative Exploration Expenditures:

- i) US\$10,000 on or before September 22, 2018 (incurred);
- ii) a further US\$30,000 on or before September 22, 2019 (incurred);
- iii) a further US\$40,000 on or before September 22, 2020; and
- iv) a further US\$50,000 on or before September 22, 2021.

Any exploration expenditures in excess of the minimum annual exploration expenditures will be carried over to the following year's commitment.

At any time after September 22, 2018 but before September 22, 2022, the Company may purchase the Riverside claims outright for US\$500,000 provided that all the cash payments and exploration expenditures set out above have been made to the latest anniversary date.

The Riverside claims are subject to a 2% net smelter returns royalty. The Company has the right, at any time, to purchase one-half of the royalty for US\$500,000.

b) Mineral Basin

By an option assignment agreement dated December 8, 2017, the Company has the right to acquire up to a 100% interest in the Mineral Basin claims which consist of 4 federally located mineral claims located in the Hyder Mining District, in the State of Alaska, USA. Consideration to acquire an initial 51% the interest is as follows:

Cash Payments:

- i) US\$10,000 on execution of the agreement (paid);
- ii) a further US\$20,000 on or before September 25, 2018 (paid);
- iii) a further US\$20,000 on or before September 25, 2019 (paid);
- iv) a further US\$20,000 on or before September 25, 2020;
- v) a further US\$20,000 on or before September 25, 2021; and
- vi) a further US\$200,000 on or before September 25, 2022.

OPTIMUM VENTURES LTD.**Notes to the Consolidated Financial Statements****For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018****(Stated in Canadian Dollars)**5. Exploration and Evaluation Assets – (cont'd)b) Mineral Basin

Cumulative Exploration Expenditures:

- i) US\$30,000 on or before September 25, 2018 (incurred);
- ii) a further US\$50,000 on or before September 25, 2019 (incurred);
- iii) a further US\$70,000 on or before September 25, 2020;
- iv) a further US\$100,000 on or before September 25, 2021; and
- v) a further US\$200,000 on or before September 25, 2022.

Any exploration expenditures in excess of the minimum annual exploration expenditures will be carried over to the following year's commitment.

Upon earning a 51% interest in the Mineral Basin claims, the Company has the right to purchase the remaining 49% interest for US\$500,000 at any time on or before September 25, 2023.

The Mineral Basin claims are subject to a 2% net smelter returns royalty. The Company has the right, at any time, to purchase one-half of the royalty for US\$500,000.

Acquisition, exploration and evaluation costs incurred on the Riverside and Mineral Basin claims were as follows:

	<u>Riverside</u>	<u>Mineral Basin</u>	<u>Total</u>
Property acquisition costs	\$ 53,454	\$ 53,454	\$ 106,908
Deferred exploration costs - assays	3,199	-	3,199
Deferred exploration costs - equipment rental	40,350	-	40,350
Deferred exploration costs - geological	36,000	-	36,000
Deferred exploration costs - labour	18,400	-	18,400
Deferred exploration costs - supervision	<u>22,500</u>	<u>-</u>	<u>22,500</u>
As at June 30, 2018	<u>173,903</u>	<u>53,454</u>	<u>227,357</u>
Property acquisition costs	40,671	27,995	68,666
Deferred exploration costs - assays	2,425	2,425	4,850
Deferred exploration costs - equipment rental	16,500	16,500	33,000
Deferred exploration costs - geological	28,400	28,400	56,800

6. Related Party Transactions and Balances

a) Transactions:

The Company incurred the following charges by directors of the Company, by companies with directors in common with the Company, by a public company with directors in common with the Company and by a company managed by a director of the Company during the year ended June 30, 2019 and during the period from November 23, 2017 (date of incorporation) to June 30, 2018:

	<u>2019</u>	<u>2018</u>
Deferred exploration costs – equipment rental	\$ 32,620	\$ 40,350
Deferred exploration costs – geological	40,100	36,000
Deferred exploration costs – supervision	11,500	22,500
Deferred exploration costs – travel and field	<u>2,500</u>	<u>-</u>
	<u>\$ 86,720</u>	<u>\$ 98,850</u>

Key management consists of the officers and directors of the Company. During the year ended June 30, 2019 and the period from November 23, 2017 (date of incorporation) to June 30, 2018, the Company did not incur any compensation expenses to key management personnel.

b) Balances:

At June 30, 2019 and 2018, there were no amounts payable to related parties.

7. Share Capital

a) Authorized:

Unlimited number of common shares without par value.

b) Issued:

On December 1, 2017, the Company issued 4,000,000 common shares at \$0.001 per share pursuant to share subscription agreements received. At June 30, 2018, \$4,000 was included in share subscriptions receivable and was subsequently received.

On June 25, 2018, the Company issued 10,500,000 common shares at \$0.05 per share pursuant to share subscription agreements received. At June 30, 2018, the Company had received \$253,000 with respect to these subscriptions and \$272,000 was included in share subscriptions receivable and was subsequently received.

On March 29, 2019, the Company issued 3,150,000 common shares at \$0.05 per share pursuant to share subscription agreements received for proceeds of \$157,500.

No finders' fees were paid or share issue costs incurred with respect to the share subscription agreements.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

7. Share Capital – (cont'd)

c) Subscriptions receivable:

During the year ended June 30, 2019, the Company received subscription proceeds of \$276,000 for subscriptions receivable at June 30, 2018.

8. Financial Instruments

The fair values of the Company's financial assets and liabilities approximate their carrying amounts.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's financial instruments consist of cash and accounts payable. Cash is classified as FVTPL and accounts payable are classified as financial liabilities at amortized cost.

The Company's financial instruments are exposed to certain financial risks. The risk exposures and the impact on the Company's financial instruments are summarized below.

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash is exposed to credit risk. The Company reduces its credit risk on cash by placing these instruments with institutions of high credit worthiness.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's cash is exposed to interest rate risk.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company's accounts payable are all current and due within 90 days of the balance sheet date.

OPTIMUM VENTURES LTD.**Notes to the Consolidated Financial Statements****For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018****(Stated in Canadian Dollars)**

8. Financial Instruments (cont'd)Currency Risk

The Company's functional currency is the Canadian dollar. The exploration of the Company's mineral properties is partially conducted in United States dollars, which may impact operating results and cash flows by changes in the Canadian dollar vis-à-vis the United States dollar. The Company does not engage in any hedging activities to reduce its foreign currency risk. At June 30, 2018, the Company had \$29,548 (US\$22,439) included in accounts payable and accrued liabilities subject to currency risk.

9. Income Taxes

The difference between tax expense for the year and the expected income taxes based on the statutory tax rate arises as follows:

	<u>2019</u>	<u>2018</u>
Net loss before taxes	\$ (90,649)	\$ (24,588)
Tax recovery on the statutory rate of 27%	\$ (24,000)	\$ (7,000)
Changes in unrecognized deferred tax assets	<u>24,000</u>	<u>7,000</u>
Total income taxes	<u>\$ -</u>	<u>\$ -</u>

No deferred tax asset has been recognized in respect of the following losses and temporary differences as it is not considered probable that sufficient future taxable profit will allow the deferred tax asset to be recovered:

	<u>2019</u>	<u>2018</u>
Non-capital losses	\$ 31,000	\$ 7,000
Unrecognized deferred tax assets	<u>(31,000)</u>	<u>(7,000)</u>
	<u>\$ -</u>	<u>\$ -</u>

At June 30, 2019, the Company had accumulated non-capital losses of approximately \$115,000 that are available to carry forward and offset future years' income. These non-capital losses begin to expire in 2038.

At June 30, 2019, the Company had foreign resource deduction pools of approximately \$418,000 that are available to carry forward indefinitely.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018

(Stated in Canadian Dollars)

10. Non-cash Transactions

Investing and financing activities that do not have a direct impact on current cash flows are excluded from the statements of cash flows. The following transaction has been excluded from the statements of cash flows:

For the period from November 23, 2017 (date of incorporation) to June 30, 2018:

- At June 30, 2018, the Company had share subscriptions receivable of \$276,000.

11. Segmented Information

The Company operates in one reportable operating segment, being the acquisition, exploration and evaluation of mineral properties in the State of Alaska, USA.

12. Capital Disclosures

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern to pursue the development of its mineral properties, finance corporate overhead costs, meet obligations as they come due, and to maintain a flexible capital structure which optimizes the cost of capital within a framework at an acceptable risk. In the management of capital, the Company includes the components of shareholders' equity, as well as cash. The Company has no earnings and therefore has historically financed its acquisition and exploration activities and corporate overhead costs by the sale of common shares.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash. In order to maximize development efforts, the Company does not pay out dividends.

The Company is dependent on the capital markets as its sole source of operating capital and the Company's capital resources are largely determined by the strength of the junior resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for investor support of its projects. The Company is not subject to any externally imposed capital requirements.

OPTIMUM VENTURES LTD.

Notes to the Consolidated Financial Statements

**For the year ended June 30, 2019 and for the period from November 23, 2017 (date of incorporation) to June 30, 2018
(Stated in Canadian Dollars)**

13. Initial Public Offering

On July 24, 2018, the Company entered into an agreement with Mackie Research Capital Corporation (the “agent”) to complete an initial public offering (“IPO”) for the issuance of 4,000,000 common shares at \$0.15 per share for gross proceeds of \$600,000. The Company granted the agent an over-allotment option to increase the size of the IPO by up to 15% for 30 days from the closing of the IPO.

The Company will pay the agent a cash commission of 10% of the gross proceeds of the IPO and will issue the agent that number of broker warrants which is equal to 10% of the number of common shares sold in the IPO. The broker warrants are exercisable into common shares at \$0.15 per share for up to 24 months from the date of closing of the IPO.

The Company will pay the agent a corporate finance fee of \$30,000 (of which \$15,000 is non-refundable). The Company will also pay the agent’s administration fees related to the offering and reimburse the agent for legal expenses. The Company paid the agent \$10,000 as a deposit against these administrative costs.

On October 1, 2019, the Company received a receipt of its IPO prospectus dated September 27, 2019 from the British Columbia, Alberta and Ontario Securities Commissions. The Company has 90 days from October 1, 2019 to close the IPO.

14. Subsequent Events

Stock Options Granted:

The Company’s stock option plan was approved by the Company’s board of directors on June 1, 2019. Pursuant to the stock option plan, the board of directors may grant to directors, officers, employees and consultants incentive stock options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares at the time of the grant. Stock options will be exercisable for a period of up to 10 years from the date of grant. Under the stock option plan, options are required to have an exercise price not less than the closing market price of the Company’s common shares prevailing on the day that the option is granted less any applicable discount permitted by the policies of the TSX Venture Exchange.

On July 15, 2019, the Company granted 1,100,000 stock options to directors and consultants of the Company entitling the holders thereof the right to purchase one common share for each option held at \$0.15 for a period of ten years from the date of listing of the Company’s common shares on the TSX Venture Exchange.

Escrow Agreement:

Pursuant to an escrow agreement dated September 27, 2019, the principals of the Company have agreed to deposit 11,000,000 common shares in escrow. Under the terms of the escrow agreement, 10% of the escrowed securities will be released from escrow on listing of the Company’s common shares for trading on the TSX Venture Exchange and an additional 15% will be released from escrow on the dates which are 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the listing date.
